Process Title	Discipline	Course #	Full Course Title	Effective Date	Units	Hours	Grading	Requisites	Catalog Description	Top Code	Justification	List of Changes	DE Addendum	Notes	CIPD Action
New Course	CIS	500	Internet of Things for the MakerSpace	Spring 2022	0	Lecture: 2 Hours Lab: 2 hours	Both P/NP or Satisfactory progress	N/A	This course introduces students to the "Internet of Things" (IoT) and how physical or real- world devices, "things," are increasingly being connected to, visible through, and controllable via the Internet and web technologies. This course is project based where students will work individually and in teams to explore and build IoT devices/solutions using System on a Chip (SoC) technologies like the Raspberry Pi and microcontrollers like the Arduino using basic Python and C programming languages.	070210 - Software Applications	Makerspace Tool for creating and manufacturing devices for the Internet of Things.	N/A	PO, OFI, FO under all circumstances	Consulation Completed	Tabled
New Course	POSCI	38	Politics of Ethnicity, Gender, and Sexuality	Spring 2022	3	Lecture: 3 Hours	Both Letter Grade or Pass/No Pass	N/A	Exploration of the political history of ethnicity, gender, and sexuality in the world: Examine issues and political processes that affect the status and power of ethnic, gender, and sexuality groups which have traditionally been politically and economically marginalized in the world, with special attention to the United States; emphasis upon issues of inclusion and exclusion; otherness, and scapegoating; illustrate socio-cultural-political barriers of inequality among politically marginalized groups; identify ways in which such injustices may be resisted and overcome.	2207.00	This course is part of the College of Alameda initiative towards an active stand against bigotry in our curriculum. It will be a part of a gender and queer studies certificate-degree program. Finally, it fulfills the ethnic studies requirement for higher education in California.	N/A	PO, OFI, FO under all circumstances	Consulation Completed	Endorsed
New Course	SOCS	13	Introduction to LGBTQ Social Justice Studies	Spring 2022	3	Lecture: 3 Hours	Both Letter Grade or Pass/No Pass	N/A	Introduction to contemporary gay, lesbian, bisexual, transgender, and queer issues: Bio-medical, sociological, political, racial and sexual.	2201.40	This is a core course for the CoA Social Justice Studies - Gender Queer AA-T and Certificates.	N/A	PO, OFI, FO under all circumstances	Consulation Completed	Endorsed

MC New Course w/DE Addendum	BIOSC	106	Introduction to Image Processing and Analysis in FIJI	Fall 2021	4	4 lecture	GR only	n/a	Introduction to processing and analysis of digital life sciences microscopy images using open source software, Fiji: Filters, segmentation, measurements, stitching for 2D, 3D and live cell data sets.	0430.00*	Life scientists are using microscopes to capture scientific phenomena now more than ever before. Microscopes create a large amount of data. One of the areas that development in the field is needed is image processing and analysis skills. Providing microscopy trainees with processing and analysis training in open source software, FIJI, will position this as employable in jobs that require this underserved area in data analysis. Bioscience 105 was created as part of the CVC-OEI grant and is a part of a DE data analysis certificate along with Bioscience 105 - Introduction to Quantitative Analysis in Bioscience.	MCCC approved 12/10/2020	FO under all circumstances	CVC-OEI grant Merritt only	Endorsed
MC New Course w/DE Addendum	CIS	98	Database Programming with SQL	Spring 2022	4	3 lecture 3 lab	GR or P/NP	Prerequisite: CIS 006 or CIS 025 or CIS 036A or CIS 061	Programming in database management systems using SQL: DML (Data Manipulation Language) and DQL (Data Query Language) features; database program design, programming structures, strategies, and techniques.	0707.20*	SQL programming ability is a desired or required skill for most programming jobs.	MCCC approved 12/10/2020	100%, 51+% online	Cloned from Laney Consultation attached	Endorsed

MC New Course w/DE Addendum	CS	25	Swift Application Programming	Spring 2022	4	3 lecture 3 lab	GR or P/NP	Recommended preparation: CIS 005 or CIS 006 or CIS 007 or CS 020	Fundamentals of programming using the Swift Language: Problem solving using variables, control structures, loops, files, objects, inheritance, exceptions, and recursion; best practices in application design and implementation to manage complexity and cross-platform compatibility; creation of software applications for the Apple and Free/Open Source Software (F/OSS) Linux Swift ecosystems.	0702.10*	Swift is a very popular language used to create applications for a range of Apple products: iPhone, Apple TV, Macintosh, Apple Watch and others. This course equips the student with common software developer competencies and practices using the Swift language. This course is required for the Swift Software Development Certificate of Achievement and A.S. degree programs. These are the entry level award on Computer Science pathway. It is also a requirement for the "Group F" set of restricted electives in the Computer Science program.	MCCC approved 12/10/2020	100%, 51+% online	Consultation attached	Endorsed

MC New Course w/DE Addendum	CS	26	Swift Data Structures and Algorithms	Spring 2022	4	3 lecture 3 lab	GR or P/NP	Prerequisite: CIS 007 Recommended preparation: CIS 005 or CIS 006 or CS 020	Fundamental data structures and algorithms natively in Swift: Use and implementation of trees, stacks, queues, deques, container, iterators, and template libraries to design and implement applications that scale; creation of software applications for the Apple and Free/Open Source Software (F/OSS) Linux Swift ecosystems.	0702.10*	Apple's Swift language is used to create applications for a wide variety of digital devices and processing power. This course maps the computer science body of knowledge in data structures and algorithms into Swift. It permits design of applications that operate correctly at scale. This course is required for the Swift Software Development Certificate of Achievement and A.S. degree programs. These are the entry level awards on Computer Science pathway. It is also a requirement for the "Group F" set of restricted electives in the Computer Science program.	MCCC approved 12/10/2020	100%, 51+% online	Consultation attached	Endorsed

MC New Course w/DE Addendum	CS	27	Swift Universal Framework Applications	Spring 2022	4	3 lecture 3 lab	GR or P/NP	Recommended preparation: CS 020 or CIS 005 or CIS 006 or CIS 007 and CIS 033	Creation of cross-platform applications that share code: Conventions and best practices in design and implementation of applications that run on iOS, tvOS, watchOS, and macOS that share code; creation of software applications for the Apple and Free/Open Source Software (F/OSS) Linux Swift ecosystems.	0702.10*	Dissemination of Merritt's successfully executed BACCC mini-grant to develop cross-platform mobile applications. Apple's many platforms use the Swift language to write programs that run on iOS, tvOS, watchOS and macOS. Students completing this course have acquired skills to make design and implementation choices that permit one set of source code to generate applications that run on iOS, tvOS, watchOS and macOS. This course is required for the Swift Software Development Certificate of Achievement and A.S. degree programs. These are the entry level awards on Computer Science pathway. It is also a requirement for the "Group F" set of restricted electives in the Computer Science program.	MCCC approved 12/10/2020	100%, 51+% online	Consultation attached	Endorsed

MC New Course w/DE Addendum	HLTOC	110	CPR and First Aid for Allied Health Programs	Fall 2021	1	1 lecture	P/NP	n/a	Introduction to emergency preparedness: Development of skills and knowledge for administering cardiopulmonary resuscitation (CPR) and first aid.	1201.00*	Program Requirement for Certificates of Achievement for both Clinical Medical Assisting as well as Administrative medical Assisting. This course was also endorsed by Advisory Board 2020 via unanimous vote for approval. Offers the latest standards for Heartsaver First Aid and Basic Life Support (BLS/CPR) Certification as taught by American Heart Association (AHA). Students qualify for Certification for 1st Aid as well as BLS after completing this course. Satisfies CPR Requirement for American Heart Association (AHA) and Medical Assistant Certificate of Achievement Replaces Merritt's HLTED 11 to add option for First Aid Certificate as well. Taught by MEDAS Faculty who are also AHA Certified Instructors.	MCCC approved 12/10/2020	51+% online	Consultation attached	Endorsed

MC New Course w/DE Addendum	MEDAS	101A	Introduction to Medical Assisting	Fall 2021	2	2 lecture	GR or P/NP	n/a	Introduction to foundational theory and skills in medical assisting: Scope of practice; law and ethics; HIPAA compliance; professional and therapeutic communication; telehealth applications, and employment preparation.	1208.00*	Created as a shorter starting point for any student interested in Clinical or Administrative Medical Assisting Certificates of Achievement. MEDAS 101A (2 Units) along with MEDAS 101B (3 Units) are the transferable alternatives to replace MEDAS 201A (5 Unit Course). Additionally the certificate requirement of COUNS 207 has also been merged into this course per most recent vote by Advisory Board of 2020. Past Advisory Board Meetings (2018 and 2020) and student surveys have supported these moves to divide the 5 Unit Course.	MCCC approved 12/10/2020	100%, 51+% online	Merritt only	Endorsed

MC New Course w/DE Addendum	MEDAS	101B	Disorders of the Body Systems in Primary Care	Fall 2021	3	3 lecture	GR or P/NP	Prerequisite or corequisite: MEDAS 101A Recommended preparation: ENGL 001A	Fundamentals of disorders of the body systems and organs of the human body: Emphasis on becoming familiar with the most common disorders encountered by medical assistants working in ambulatory care medical offices.	1208.10*	Core Course Requirement for Clinical and/or Administrative Medical Assisting Certificate of Achievement. MEDAS 101A (2 Units) along with MEDAS 101B (3 Units) are the transferable alternatives to replace MEDAS 201A (5 Unit Course). Past Advisory Board Meetings (2018 and 2020) and student surveys have supported this move to divide the 5 Unit Course. This is important to provide the overview of disorders of the body system most commonly encountered in Primary Care. This is a core course for Medical Assisting Students to provide knowledgeable Patient Education for those in Ambulatory Care.	MCCC approved 12/10/2020	100%, 51+% online	Merritt only	Endorsed

MC New Course w/DE Addendum	MEDAS	102A	Clinical Medical Assisting I	Fall 2021	3	2 lecture 3 lab	GR or P/NP	Prerequisite or corequisite: MEDAS 101B	Fundamentals of clinical medical assisting: Medical and surgical aseptic procedures; vital signs measurement; assisting with physical examinations, positioning, and draping; height, weight, vision, and hearing testing; obtaining patient history; and eye and ear procedures.	1208.10*	Created to divide the 7 Unit Course, MEDAS 201B, into three Courses: MEDAS 102A, 102B, and 102C. Past Advisory Board Meetings (2018 and 2020) and student surveys have supported this move. This is important to divide the courses into levels of complexity as well for a more gradual exposure to improve retention and student success and levels of competency. This and all other MEDAS courses being proposed in Fall 2020 are designed to update and redesign the Program that needs to change with academic and occupational demands of the changing times of our Health Care Industry.	MCCC approved 12/10/2020	100%, 51+% online	Merritt only	Endorsed

College	Proposal Type	Title	Award Type	Effective Term	Discipline	Top Code	Changes/Justification	MCCC Approval	CIPD Action
Merritt	New Program	Administrative Medical Assisting	Certificate of Achievement (17 units)	Fall 2021	MEDAS	1208.20*	<p>The Administrative Medical Assisting Certificate of Achievement program is a Career Education program. Its goal is to provide quality instruction within a comprehensive curriculum that provides the student enhanced employment opportunities and/or upward career mobility in the areas of healthcare, public health, and "front office" duties. This program can be completed within one year, culminating in a Certificate of Achievement upon satisfactory completion of all major requirements.</p> <p>This program produces graduates and a workforce that responds to changes in population demographics (the aging population and the underserved) and healthcare system and policies. These influences align with the necessary changes in the way healthcare must be delivered. New Healthcare development and delivery of health care are in constant state of change. As demands for new developments continue, we must strive to improve cost effectiveness and to increase positive health outcomes by providing enhanced quality of care through value-added services. There is a shortage of healthcare providers; this increases the need for other members of the healthcare team to assist in providing those services.</p> <p>Consequently, there is a workforce demand requiring the education and training of Medical Assistants to be more expansive in teaching soft skills and to restructure the program, as requested by Advisory Committee members. The purpose of this program is to meet this workforce demand while enhancing employment potential and career mobility for graduates of the program. This is the only Certificate of Achievement offered by the district with Top Code 1208.20*. Administrative Medical</p>	12/10/2020	Endorsed
