Laney	New Program	Chinese	Associate of Arts	Spring 2021	CHIN	1107.00	<p>The Associate in Arts degree in Chinese will provide students with skills in understanding, speaking, reading and writing Mandarin Chinese. The curriculum exposes students to Chinese culture and civilization and provides foundational skills in language that can apply to a broad range of international and domestic career opportunities and professions. The degree will provide the preparation necessary for transferring to UC, CSU and other four-year colleges and universities to earn a bachelor's degree. As this degree alone may not be complete preparation for transfer, students wishing to continue at the UC or CSU system should meet with a counselor to develop a transfer plan which addresses all general education and lower-division transfer requirements.</p>	9/18/2020		Endorsed

MC	New Program	Computer Project Management	Certificate of Achievement	Spring 2021	CIS	0702.00	<p>Modern business processes are supported by software. This program includes instruction in Software Engineering to enable the creation of reliable integrated software systems that meet business goals. This is an entry level program that stacks with other programs in the Information Technology/Information Systems (IT/IS) pathway. It can be combined with the entry level program "Information Technology (IT) and Help Desk Technician" for progress toward the "Information Systems Analyst" award or the terminal "IT/Software Project Management and Automation" award. This program can be completed entirely online and is part of the California Virtual Campus-Online Educational (CVC-OEI) initiative which uses online programs in the service of workforce development.</p> <p>The graduate of this program is able to oversee software endeavors undertaken to produce a product, service or result. These projects have a defined beginning and an end, a defined scope, and defined resources. A project is unique in that it is not a routine operation, but a specific set of operations designed to accomplish a singular goal. Project teams often include people who don't usually work together – sometimes from different organizations and across multiple geographies.
