Approved Budget Increase

The standard student budget can be increased on a case-by-case basis for the following: the one-time purchase of a computer during a student's education within the Peralta Community College District; cost of dependent care while the student attends classes; special educational expenses for students with disabilities; certain vocational programs that require equipment, tools, uniforms, or supplies. Inquire with your campus financial aid office if you have these expenses. Verification may be required. Please note that no adjustments will be made to less than half-time budgets.

**Dependent students are automatically assigned the At-Home budget due to the Housing question being removed from the FAFSA. Students can file an appeal to update their budget status to Away from Home. Once approved, their budget will be updated.*

***Independent students are automatically assigned the Away from Home budget.*
