	A. Discuss and Present Draft 2020/21 Tentative Budget based on Governor's July 1, 2020 Signed Budget		E.3 — Fiscal Oversight	VC Walter presented the assumptions for the Tentative Budget. This is a Comparison between the May Revise and the current Budget. Initially the May Revise Budget was to impose some severe cuts. Between May 14 and June 29 the leiglature came upwith a more deferral strategy. This means rather than cutting the revenue is being deffered. We plan to keep our 10% reserve. We are planning with expenditure budgets and participatory governance process to look at the development of how we are to move forward. BAM is continuing to meet over the summer to provide recommendations to the Chancellor. Basically, Revenue Assumptions in terms of enrollment did not change. We do not have COLA and are receiving the same amount regarding the lottery. No change to Block Grant or Parcel Tax. We are not going to have Draconian cuts which means no loss in funds in Strong Workforce, no decrease in Student Equity and we do not have a problem with Cal Grant. Offset in Property Taxes were eliminated because it is believed that tax receipts will be coming in a little higher. There is an increase in Dreamers support and for legal services. There is no decrease in our Part-Time Faculty office hours. We will receive \$100K for putting together a grant delivery system. The deferals are to take place in this fiscal year. When it comes to deferrals it means we need to be mindful and on top of the Cash Flow. Generally, right now we are in good shape. Expenditure Assumptions had no changes to report.	Send the Chancellor a copy of the Assumption from May Revise and SCFF Calculations.	

The Administrative Procedure and Board Policy regarding the Parcel Tax was added into the Assumption to make it clear what is needed for those plans to come forward. Five Year Prejections
Tive Teal Trejections
The Five Year Projections were discussed by EFD Ahmed. Student Centered Funding Formula (SCFF) calculations are based on a 3 year average and it will decline. PCCD is to be "Held Harmless" and there would be a loss if there was none. Best solution is to increase enrollment. The P2 Report has more accurate information. Unless enrollment increase then we will have to plan cuts.
Some colleges have maximize the SCFF.
Any other ideas from anyone, please send via email to VC Walter or Richard or in the chat box.
New Tentative Budget
VC Walter discussed the New Tentative Budget.
Book Supplies/Services is primarily for services/contracts. It is not just for books and supplies.
VC Walter and VC Sata are working on how the centralization will plan out.
2. Monies identified at the District are really at the colleges. Custodiams at Merritt are an item at the District. Example; security contracts may be district set up, but for the colleges.

	3. Utilies are still allocated to the colleges. It shows at the colleges. Engineers from DGS still at the college level. Because of the centralization it will show an increase at the district. The ePAFs forms/systems needs to be changed with Human Resrouces. Utility invoices are different. At this time, there is nothing new to add on how colleges are receiving funds. The BAM Task Force reconvenied. Last year, there was a recommendation to the Chancellor that was not accepted. We are looking to see how the BAM may be revised and include the SCFF matrics into the model , as well as, the industry standard. BAM recommendation will be provided in the Fall. The goal is to implement the BAM when the January Budget is received in 2021. Next week a Webinar on Tentative Budget by VC Walter is scheduled for Monday, July 13, at 12:00 pm. Everyone is invited to attend.
III. Next meeting	The next PBC meeting is to be determined.
IV. Adjournment	The PBC meeting was adjourned at 5:00 pm.

The May Revision proposes total general obligation bond funding of \$223.1 million including \$28.4 million to start 25 new capital outlay projects and \$194.7 million for the construction phase of 15 projects anticipated to complete design by spring 2020. This allocation represents the next installment of the \$2 billion available to CCCs under Proposition 51. There were no allocations for PCCD.

However, there are re-appropriations for delayed projects at:

Merritt College – Child Development Center

Merritt College – Horticulture Building Replacement

Laney College – Learning Resource Center

Laney College for modernizing the Theater Building.

College of Alameda – Replacement of Buildings B and E (Auto and Diesel Technologies)

These projects are in the working drawings stages.

In the March 3 statewide primary election, a majority of voters rejected Proposition 13, School and College Facilities Bond, which would have provided \$2 billion for CCC educational facilities (out of a total of \$15 billion for all educational segments). This is the first school bond proposal rejected by California's voters since 1994. In the final tally, 47% of voters voted in favor of the bond proposal and 53% voted against it
